

ThinkUKnow Cyber Safety Presentation

The ACT Education Directorate is hosting a **ThinkUKnow** presentation for parents, carers and teachers.

Date: Wednesday 4 September 2019
Time: 6:30pm – 8:00pm
Location: Hedley Beare Centre for Teaching and Learning,
51 Fremantle Drive, Stirling, ACT

ThinkUKnow is a free, evidence-based cyber safety program by the Australian Federal Police. The presentation aims to provide you with the tools to create a safer online environment for young people in your care.

The presentation covers topics such as social media reputation management, cyberbullying, 'sexting', online grooming, online gaming, inappropriate content, privacy management, identity theft, how to protect your devices, and how to report matters when things go wrong.

The program bridges the knowledge gap between adults and young people so that everyone has an understanding of the roles they play and what they can do if something goes wrong online.

What young people **SEE** online

- We talk about challenges such as online grooming, 'sexting', cyberbullying and inappropriate content.
- What you can do to support young people through online challenges.
- We also explain how to report if something goes wrong.

What young people **SAY** online

- What you can do to help support young people understand what they say online can be permanent. We call this our 'digital shadow'.
- This includes talking about being respectful online, thinking before you post, knowing what information is okay to share online.

What young people **DO** online

- How they use technology to have fun online, such as applications (or apps), websites and social networks.
- How they can handle their digital shadow, including their privacy and relationships online.
