

Belconnen High School

COURSE OUTLINE Semester 2, 2026

Course Title: **9 Metalwork**
Faculty Head: Jo Hopman

Faculty: **Technologies**

Description of Course

In Metalwork, students will learn and develop practical skills in using hand tools, power tools, and machinery to work with a variety of metals. With an emphasis on safe working procedures, students will work in a collaborative workshop environment to design, personalise and build a range of practical metal projects, including a dog tag, rebar statue and a safe.

Learning Outcomes

- Creates, adapts and refines design ideas, processes and solutions and justifies their decisions against developed design criteria that include sustainability
- Communicates design ideas, processes and solutions to a range of audiences, including using digital tools
- Selects and uses technologies skilfully and safely to produce designed solutions

Materials Required

Students will have access to a google classroom where class tasks and assessment items will be displayed, therefore a device is required. The assessment dates for this subject will appear on the students google calendar. Students can refer to the BHS Study Skills Guide and the BHS website for assistance with assessment tasks. The Assessment and Reporting Policy is available on the school website. Items Required Chromebook or suitable device Notebooks, pencil case and equipment.

Homework Required

Students will be expected to complete a variety of tasks outside of class time. This may include, teacher-set homework, research for tasks, revision for tests, review of class work and more.

Assessment Schedule

	Due Date	% Weighting
Dog Tag	07/08/2026	
Rebar Statue	25/09/2026	
Metal Safe	27/11/2026
